

## Top links

### [First M17 based radios begin shipping](#)

Connect Systems has begun shipping the first radios that operate M17 out of the box.

[Amateur Radio Daily](#)

### [The rich history of Ham Radio culture](#)

To really belong, you're going to have to go along with the standard operating procedures universally accepted by Radio Amateurs.

[MIT Press](#)

### [Successful AREDN link](#)

If you pick up something just to learn the thing, you likely won't go far with it.

[N3VEM](#)

### [VHF/UHF handheld performance comparison](#)

Comparing performance in sensitivity, dynamic range, and adjacent channel rejection.

[QRPer](#)

### [What is the difference between a counterpoise and a radial in a vertical antenna?](#)

In the context of vertical antennas, both counterpoises and radials are used to improve the efficiency and radiation pattern of the antenna by providing a ground system.

[VE3IPS](#)

### [The baked potato radial](#)

Would a Mylar blanket work the same way as the Faraday cloth?

[K3FNB](#)

### [The best reasons to build a go-box](#)

It saves time in the field and helps to ensure nothing is left behind in the shack.

[Ham Radio Outside the Box](#)

### [TD-H3 VHF/UHF radio](#)

You can think of this as an improved Baofeng UV-5R.

[K0NR](#)

## [A one-of-a-kind shortwave radio station](#)

WBCQ is probably the only shortwave, AM, and FM combination radio station in the United States.

[RadioWorld](#)

## [DLARC adds over 1,300 items to new college radio collection](#)

Materials in the collection include 'zines, radio station program guides, flyers, playlists, correspondence, books, academic theses, magazines, and more.

[Internet Archive](#)

## [Is shortwave on life support?](#)

Today, the shortwave landscape is a mere shadow of itself.

[Hackaday](#)
